CBSET Inc
500 Shire Way
Lexington, MA 02421

Customer ID: **38804**
Certificate: **14-A-0038**
Site: 001
CBSET, Inc - Grafton

Type: ROUTINE INSPECTION
Date: 07-JUN-2023

3.131(d)

Sanitation.

At the time of the inspection, there were large numbers of house-type flies noted in one portion of the indoor swine housing facility. The flies were observed on the bodies of many of the pigs housed in this portion of the facility as well as on the walls and floors of the affected enclosures.

Per this Section, a safe and effective program for the control of insects, ectoparasites, and pests shall be established and maintained. Although the Licensee has a pest control program in place that utilizes several different modalities, the measures in place were not effectively controlling and reducing the number of flies based on the number of flies seen on the animals and in the enclosures. Correct by 7/10/23.

This inspection and exit briefing were conducted with facility representatives.
