Pine Acre Rabbitry/Farm
299 East Main Street
Norton, MA 02766

Customer ID: **19025**

Certificate: **14-B-0031**

Site: 001

PINE ACRES RABBITRY FARM
INC

Type: ROUTINE INSPECTION

Date: 10-FEB-2026

3.56(a)(1)

Sanitation.

There was an excessive amount of urine-soaked wooden shavings, hair, and particulate debris noted on the front corner of the door and on the front edge of the floor of 5 male rabbit enclosures compared to the other enclosures located in the same room. There was also a noticeable urine odor noted when standing in front of these enclosures.

Per this Section, primary enclosures for rabbits shall be kept reasonably free of excreta, hair, and other debris by periodic cleaning of the enclosures. Although the rabbit enclosures are changed every two weeks and the pans are scraped three times a week, these 5 enclosures had a build-up of urine-soaked shavings, hair, and particulate debris. The Licensee needs to spot-clean/clean any enclosures with an excessive build-up of soiled shavings, hair, or debris on a more frequent basis for the health of the animals and to minimize urine odor. Correct by 2/20/26.

This inspection and exit briefing were conducted with facility representative.
