Type: ROUTINE INSPECTION
Date: 28-JUL-2022

3.11(d)

Cleaning, sanitization, housekeeping, and pest control.

There were flies in the whelping enclosures housing dogs. Flies were all around the puppies and their food bowls. There was no pest control method in place to mitigate the flies in this area. This needs to be addressed and an effective program for the control of flies must be established and maintained so as to promote the health and well-being of the dogs.
