Type: ROUTINE INSPECTION
Date: 11-MAR-2021

3.6(a)(2)

Primary enclosures.

1. A hole was observed in the wooden floor in an enclosure housing 2 dogs. This could lead to injury since the hole was large enough to allow the dogs' legs to fall through. Enclosures must be kept in good repair to avoid injury to the animals.

****Correct by April 1, 2021

2. A piece of wood serving as a support beam in one enclosure was observed with worn jagged edges. In addition, the tips of 2 screws were exposed and facing into the enclosure. This condition could injure the dogs. The enclosure needs to be kept in good repair in order to protect the dogs from injury. The screws were removed and this was corrected at the time of inspection.

*****Corrected at time of inspection

3.11(b)(2)

Cleaning, sanitization, housekeeping, and pest control.

Some food bowls were observed with an accumulation of debris. Feeding out of unsanitary bowls could cause the dogs to become ill and affect their health. Food receptacles must be sanitized at least once every 2 weeks.

****Correct by March 22, 2021

This inspection and exit interview were conducted with the licensee.
