Type: RE-LICENSE INSPECTION
Date: 03-FEB-2026

3.154 Repeat

Environment enhancement to promote psychological well-being.

The facility continues to enhance the environments for the birds for their health and well-being. However, a written and veterinary approved plan still has not been completed and documented. The facility must still document an appropriate environmental enhancement plan for the finches, parakeets, canaries, dove and macaw. This plan must be approved by the attending veterinarian.

Dealers, exhibitors, and research facilities must develop, document, and follow a species-appropriate plan for environment enhancement adequate to promote the psychological well-being of birds. The plan must be approved by the attending veterinarian and must be in accordance with the regulations in this subpart and with currently accepted professional standards as cited in appropriate professional journals or reference guides.

This is a 1st Re-License Inspection for a Class "B" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspection(s) or by April 4, 2026 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
