

Inspection Report

James Weaver
810 Weavertown Road
Myerstown, PA 17067

Customer ID: **31668**
Certificate: **23-A-0305**
Site: 001
JAMES M WEAVER

Type: ROUTINE INSPECTION
Date: 17-MAR-2015

2.75(b)(1)

RECORDS: DEALERS AND EXHIBITORS.

Since the previous inspection, records of animal births and deaths were not maintained for the guinea pigs. Records must be kept on animals for animal tracking, assessment of the animal care program, and to comply with the Animal Welfare regulations. The licensee must ensure that records on animal births and deaths are kept and maintained. Correct from this day forward.

3.31(a)(1)

SANITATION.

There are accumulations of brown stains and debris on the glassboard sides, ventilation pipe, and supports in the primary enclosures. The cleaning process (method and frequency) utilized is not effective in removing this accumulation of stains and debris inside the enclosures. Ineffective cleaning and sanitation exposes the animals to potential disease hazards such as bacterial, fungal, and viral diseases. Primary enclosures must be cleaned often enough to prevent an accumulation of scale, debris, stains, excreta, and soiled bedding and must be sanitized at least once every 2 weeks. Correct by ensuring that all primary enclosures are kept clean to prevent an accumulation of stains and debris and that all enclosures are sanitized at least once every 2 weeks. Correct by March 21, 2015

An exit briefing was conducted with the owner's wife.
