Type: ROUTINE INSPECTION
Date: 05-FEB-2019

3.31(a)(1)

SANITATION.

This facility is not sanitizing primary enclosures every 2 weeks as required. The licensee stated that bedding is being changed weekly and enclosures are being cleaned but a formal sanitization every 2 week is not currently occurring. Failure to sanitize surfaces in contact with the animals in a manner provided in Section 3.31(a)(4) may expose the guinea pigs to disease hazards. Correct this ensure all surfaces in contact with the animals are sanitized at least every 2 weeks.

This inspection and exit interview were conducted with the licensee.
