Certificate: **23-A-0580**
Site: 001
STEVEN EBERSOL

Type: ROUTINE INSPECTION
Date: 15-SEP-2014

3.31(b)

SANITATION.

Housekeeping. The floor contains spilled feed, shavings, straw, and debris. There is a dust, dirt, debris, spilled feed, and clutter on the upper shelf in the back corner of the building. Cobwebs are accumulating on the ceiling and walls. There is a large dirt pile on the left side of building with tree branches, clutter, and wood piled nearby. There are rodent holes and tunnels around the building. Animal facilities must be kept clean to prevent disease hazards and health problems. Correct by ensuring the premises are kept clean, including: removing accumulations of dust, cobwebs, straw, shavings, and feed; routinely dusting off and sanitizing all surfaces in the inside of the facility; cleaning off the shelf in back corner; removing dirt pile and clutter around the perimeter of the building to prevent pest problems.

Correct by September 25, 2014.

3.31(c)

SANITATION.

Pest control. Rat holes and tunnels are present around the outside of the guinea pig building. There is a large dirt pile on the left side of building with tree branches, clutter, and wood piled nearby. Owner reported that a pest control company is coming out monthly. Additional measures are necessary to control and eliminate the pest problem. Correct by ensuring an effective pest program is established and maintained and removing the dirt pile and clutter around the perimeter of the building to prevent hiding and living areas for wild rodents.

Correct by September 25, 2014.

An exit briefing was conducted with owner.
