294 Morrison Mill Road
Kirkwood, PA 17536

Customer ID: **501677**
Certificate: **23-A-0646**
Site: 002
Amos Smucker

Type: ROUTINE INSPECTION
Date: 21-JUN-2022

3.28(b)(3)(iii)

Primary enclosures.

Space. Insufficient space was being provided to 122 weanling guinea pigs in 9 enclosures. Enclosures measure 33 inches by 21 inches or 693 square inches of floor space. Weanling guinea pigs weighing up to 350 grams require at least 60 square inches of floor space each. Weanling enclosures can not house more than 11 guinea pigs weighing up to 350 grams. Nine weanling enclosures had 12 or more guinea pigs in 693 square inches of floor space.

Inadequate space can cause stress, overcrowding, and can increase aggression in animals which can result in ear chewing and injuries from fighting. Licensee must ensure that guinea pigs are provided with a least the minimum amount of floor space per animal to prevent unnecessary stress and discomfort. Correct by June 30, 2022.

This inspection and exit interview were conducted with the licensee.
