3.26(d)

Facilities, indoor.

Interior surfaces. The wooden floor of the guinea pig building and a 5.5 foot by 8 foot section of the front wooden wall are not sealed. Surfaces that are not impervious can absorb moisture, hold odors, and do not allow adequate cleaning and sanitization. Indoor building surfaces must be constructed and maintained so that the surfaces are impervious to moisture. Correct by November 14, 2020.

This inspection and exit interview were conducted with a family member.
