2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The attending veterinarian did not visit the facility in the last year (2025). The program of veterinary care states that regularly scheduled visits by the veterinarian will be completed annually, however, a veterinary visit has not occurred since April 22, 2024.

It's important to follow the program of veterinary care and have regularly scheduled visits by the veterinarian to ensure that the animals are receiving proper medical care, and that the veterinarian is familiar with the animals and facility in order to provide appropriate veterinary guidance.

The licensee must follow their program of veterinary care including regularly scheduled veterinary visits to the premises.
Correct by: July 1, 2026.

2.75(b)(1)

Records: Dealers and exhibitors.

The licensee has not been maintaining records of the current number of guinea pigs at the facility.

Failure to maintain records which fully and correctly disclose the number of animals born, held, owned, acquired, or disposed of can make it difficult to track regulated animal movement and identify trends in animal losses which could indicate disease conditions in the guinea pigs.

The licensee must maintain records which disclose the number of animals born, held, owned, acquired, sold or disposed of.

Correct by: June 5, 2026.

This inspection was conducted with a family member, and the exit interview was conducted with the licensee.
