POINTER HILL PET PRODUCTS

Type: ROUTINE INSPECTION

Date: 30-SEP-2014

3.56(c)

SANITATION.

Section 3.56(c) Housekeeping: The two rooms housing the rabbits have food and debris on the floor. An air conditioner is stored on the floor and miscellaneous items are on the window sills and flat surfaces. Rabbit hair is accumulating on the ceiling and other surfaces. Pest may be attracted to the spilled food and the clutter may provide living areas for the pests. The clutter also makes cleaning more difficult. Pests may carry diseases and dust/debris may adversely affect the rabbits. The clutter must be removed and the rooms kept cleaned to facilitate the prescribed husbandry practices and to maintain the health of the rabbits.

Correct by October 7, 2014.

An exit briefing was conducted with the owner's wife.
