Type: RE-LICENSE INSPECTION
Date: 06-MAY-2023

3.13(a)(3)

Veterinary care for dogs.

* The last recorded date for annual rabies vaccination and fecal float testing for 34 dogs was done on 10/25/21. Annual rabies vaccinations and fecal float testing are important for the health of the animals. Fecal float testing is done to ensure that there are no active internal parasites. The licensee must ensure that all dogs are receiving vaccinations for contagious and/or deadly diseases of dogs (including rabies, parvovirus, and distemper) and sampling and treatment of parasites and other pests (including fleas, worms, coccidia, giardia, and heartworm) in accordance with a schedule approved by the attending veterinarian. Correct by 6/6/23.

This is a 1st Re-License Inspection for a Class A license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspection(s) or by July 6, 2023 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
