2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

***The facility had medications that were past the labeled expiration date. The expired medications included Betagen topical spray (Expired 6/01/2015) and Doc Roy's Tri Omega 3 (Expired 10/2014). These medications were stored with other medications that were currently being used, and therefore ready to use. Expired medication may not work as anticipated, could become contaminated or harm the animals. Usage of medications that are not properly labeled may harm the animals. Licensee must establish and maintain a program that ensures medications are not used past their labeled expiration date and ensure all bottles are labeled correctly.
To be corrected by: December 17, 2015.

Inspection and exit interview conducted with facility representative and Chad Proctor ACI.
