ELI A RABER

Type: ROUTINE INSPECTION
Date: 01-MAY-2017

3.11(a)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

During the inspection it was noted that the wash-down areas had a heavy buildup of tan material. There was a moderate amount of feces and urine present within the wash down area. This buildup is an indicator of dried urine and feces that has built up over time. Improper cleaning and sanitization of the wash down contributes to the odor and disease hazards within the facility. This facility must establish and maintain a routine for proper cleaning and sanitation for the facility to include all wash downs.

Correct by May 15, 2017.

This inspection and exit interview were conducted with the Licensee.
