Inspection Report

- Adult male (M) Yorkie #2086 was last vaccinated for rabies on 4/4/22. Booster vaccination was due 4/4/23. There is no record this dog has received a distemper and parvovirus vaccine. The distemper and parvovirus vaccines are due.

- Adult male (M) Yorkie #2087 was last vaccinated for rabies on 4/4/22. Booster vaccination was due 4/4/23. There is no record this dog has received a distemper and parvovirus vaccine. The distemper and parvovirus vaccines are due.

Distemper, parvovirus, and rabies are potentially life-threatening diseases to dogs and, if contracted, may cause pain, distress, and suffering. It is also important for breeding females to be vaccinated as they will pass immunity to their offspring through their milk. Correct by vaccinating for distemper, parvovirus, and rabies in accordance with a schedule approved by the Attending Veterinarian and vaccine manufacturer recommendations. Correct by: August 9, 2023.

This inspection and exit interview were conducted with the licensee.
