TRACIE WELLER

Type: RE-LICENSE INSPECTION

Date: 19-SEP-2022

3.127(d)

Facilities, outdoor.

The facility has two perimeter fence lines where enclosures are less than 3 feet in distance from the perimeter fence. A variance request was submitted but did not include both areas of the perimeter fence that did not meet the requirements. The first perimeter fence line has two long fox enclosures containing 4 Red fox that measures 2 feet from the perimeter fence on one end of the enclosure, and 2.5 feet in distance on the opposite end. The second perimeter fence line has two fox enclosures containing 3 Red fox that measures approximately 1 foot from the perimeter fence. A perimeter fence that is not sufficient distance from the primary enclosure can allow for contact between animals inside the enclosure with animals or people outside of the perimeter fence which causes a threat to animal welfare. Correct by ensuring that all perimeter fences are more than 3 feet in distance from primary enclosures or enclosures less than 3 feet in distance from the primary enclosures are approved in writing by the administrator.

This is a 1st Re-License Inspection for a Class "A" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by 18 November 2022 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.
