Type: ROUTINE INSPECTION
Date: 02-DEC-2014

2.75(a)(1) REPEAT

RECORDS: DEALERS AND EXHIBITORS.

Currently there are no ID numbers for 13 puppies from 3 litters on the puppy records, or there are ID numbers on the 7006 forms that are not next to the corresponding puppy on the puppy records. . The licensee has the number of puppies per litter and sex, however no ID numbers that can be traced from that litter record to the 7006 Disposition form of sale. Several of the disposition forms(7006) are missing signatures and dates on the bottom of the forms.

It is important to keep updated and complete records for proper management and care of the regulated animals.

All regulated animals Acquired by the licensee must be accounted for on the On Hand records (7005), keeping all sales, deaths and transfers updated and followed by the corresponding Disposition forms (7006). All information must be filled out on both forms in order to allow for proper traceback-ability of all regulated animals coming and going from the facility. Proper puppy records must be kept, which includes providing all puppies ID numbers that can be traced back to the female they were born to, and the females and males must be identified (include tag number) so they can be found on the 7005 (Acquisition forms) if they are located at the facility.

Inspection and exit interview conducted with the father of the licensee.
