2.50(a)(1)

Time and method of identification.

Two toy poodles and four golden doodles did not have identification. All dogs held by the facility must have identification. This information is needed for both inventory control and medical record purposes. Provide all animals held by the facility with identification as described by this section.

Correct by: 2-10-22

3.13(a)

Veterinary care for dogs.

The program of veterinary care does not address heartworm testing or preventive care and treatment to ensure healthy hair, nails, eyes, ears, and teeth. The program of veterinary care is a required document that APHIS inspectors use to determine the quality of veterinary care for the animals at a facility. This document must address all the information required in section 3.13(a) and be followed by the licensee to ensure adequate care and treatment of the animals. All required information listed in section 3.13(a) must be included in the program of veterinary care.
