Type: ROUTINE INSPECTION
Date: 18-FEB-2026

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

There is an expired bottle of medication still in use in the kennel. A bottle of Safeguard (dewormer) expired 09/2025. The licensee reported he has used the medication since the expiration date. Expired medications are improper for usage as the efficacy, potency, and freshness cannot be confirmed. If the medications are no longer effective, normally preventable diseases may become a problem. Correct by ensuring that all medications are not expired when in use, so the licensee is able to use the appropriate methods to prevent, control, diagnose, and treat diseases. The licensee disposed of the bottle at the time of the inspection. Correct by: 2/18/26, onward.

This inspection and exit interview were conducted with the licensee.
