PO Box 318
Mount Horeb, WI 53572

Customer ID: **769**
Certificate: **35-A-0009**
Site: 001
Ridglan Farms Inc

Type: ROUTINE INSPECTION
Date: 19-MAY-2026

2.40(b)(3)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The facility did not perform complete daily observation of all animals to assess their health and well-being.

The inspectors observed an adult, one year old female dog [VWE5] with a skin condition. The dog had many circular areas of hair loss on the outside of both ears and mild crusting on the tip of the right ear. The hair on the inside of both ears was also patchy. Some of the skin in these hairless areas was red and crusted. The dog also had two areas of moist red hair loss on the left front paw (about 5mm in diameter).

According to facility representatives, this condition was not identified prior to the inspection. This has prevented the attending veterinarian from the opportunity to provide medical care for the animal.

Correct by arranging for the Attending Veterinarian to evaluate this animal and ensuring the facility is performing daily observation of all animals to assess their health and well-being.

The facility instituted corrective actions at the time of inspection.

This inspection and exit interview were conducted with facility representatives.

Additional Inspectors:

William Janecke, Veterinary Medical Officer
