Type: ROUTINE INSPECTION
Date: 13-DEC-2016

3.4(b)(3)

OUTDOOR HOUSING FACILITIES.

The outdoor shelters for nine adult Samoyed dogs do not have weather breaks at their entrances. Lack of weather breaks cannot provide protection to the dogs from rain, wind and snow. Provide weather breaks at the entrances of all outdoor shelters. Correct by December 28, 2016.

3.4(b)(4)

OUTDOOR HOUSING FACILITIES.

The outdoor shelters for nine adult Samoyed dogs do not have bedding provided. The ambient temperature was approximately 6 degrees F at the time of inspection. While Samoyed dogs are cold tolerant dogs, lack of bedding does not ensure for their health and comfort and can cause the dogs to become cold and stressed, making them more susceptible to health problems. Provide bedding to outdoor shelters when ambient temperatures fall below 50 degrees F. Also, provide additional bedding to all outdoor shelters when the ambient temperatures are 35 degrees F or lower. Correct by December 16, 2016.

This inspection and exit interview were conducted with the licensee and facility representative.

End of report.
