Certificate: **35-A-0533**
Site: 002
William Kurtz

Type: ROUTINE INSPECTION
Date: 11-JUN-2026

3.13(a)(3) Repeat

Veterinary care for dogs.

The program of veterinary care doesn't have a deworming schedule for his puppies that has been prepared and approved of by the attending veterinarian. Not having a deworming schedule in the program of veterinary care doesn't ensure the puppies are being adequately dewormed against the various parasites that can infect a dog. The attending veterinarian must add a deworming schedule to the program of veterinary care for the puppies.

3.13(b)(2)

Veterinary care for dogs.

The licensee had annual exams completed on all the adult dogs in the spring of 2026. Approximately 20 adult dogs were documented as needing dentals (teeth cleaning) done. The licensee has performed the dentals, but has not documented when these dentals were completed. Not documenting all treatment procedures performed on all dogs doesn't allow APHIS officials to confirm these treatment procedures have been completed. The licensee must document all treatment procedures on all dogs going forward. Correct starting on 6/12/26.

3.13(c)(2)

Veterinary care for dogs.

The licensee has sampled his population for fecal parasites within the past few months, but he discarded the documentation of the test results. Not keeping all medical records for at least one year after the dog(s) has been euthanized, transferred out, or otherwise disposed of doesn't allow APHIS officials to ensure the population has been sampled for parasites in accordance with a schedule approved by the attending veterinarian. The licensee must keep all medical records for all dogs for at least one year after the dog(s) has been euthanized, transferred out, or otherwise disposed of. Correct starting on 6/12/26.

This inspection and exit interview were conducted with the licensee.

End of report.
