W4651 Winding Ln
Cambria, WI 53923

Customer ID: **506268**
Certificate: **35-A-0545**
Site: 002
Timothy Mast

Type: ROUTINE INSPECTION
Date: 07-APR-2026

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

Female Havanese, ID#3705's right ear had dark material and the skin was lightly red and felt slightly thickened. These are signs of an active ear condition. The licensee was not treating this and has not trimmed the ear hair and cleaned the ear and did not have the ear cleanser/products on hand that the program of veterinary care indicates should be used to start treating this condition. Untreated ear conditions such as this can cause discomfort and in some cases spread to other dogs. Ensure the attending veterinarian is contacted about this dog's ear and begin treatment as indicated by the attending veterinarian.

***Correct by 4/10/2026

3.11(c)

Cleaning, sanitization, housekeeping, and pest control.

In each exercise pen there are areas of plastic seed netting that is loose and in piles. The seed netting was spread out in the fall to plant grass, however over the winter is loose, creating areas of plastic netting that dogs could chew on or trip on if they run over it. To protect dogs health, ensure that any loose seed netting is removed.

***Correct by 4/11/2026.

This inspection and exit interview were conducted with a facility representative.
