Type: ROUTINE INSPECTION
Date: 02-JUN-2026

2.1(b)(2)(ii)

Requirements and application

The licensee consigned 2 arctic foxes on 11-19-2025 at a Missouri auction (5-H). The current USDA license does not authorize regulated activity for (consigning/selling) wild canids. Prior to conducting regulated activity with wild canids, a license must specifically authorize the use of wild canids. Ensure to have a license that authorizes regulated activity for certain species prior to selling/consigning such species.

***Maintain correct from 6/2/2026 forward.

2.132(d)

Procurement of dogs, cats, and other animals; dealers.

Two North American opossums were acquired from a facility on 5/26/2026 that is not USDA-licensed and then sold to individuals as pets with the understanding that since both facilities have DNR licenses for this species they could be acquired. Acquiring and selling North American opossums as pets is USDA-regulated and requires each entity (breeder and dealer) to be USDA-licensed. For regulated animals, ensure that they are obtained only from a facility/person that holds a current, valid, and unsuspended license.

***Correct from 6/2/2026 forward.

This inspection and exit interview were conducted with a facility representative.
