2.75(b)(1)(iv)

Records: Dealers and exhibitors.

The records of animal sales indicate where animals were taken to for transportation but do not have the name and address of the person/business that purchased the animals. Incomplete records don't allow APHIS officials to trace animals for health reasons, if needed. Records of sales must have the name and address of the purchaser (of where the animals went to).

***Correct by 4/15/2023.

3.31(b)

Sanitation.

There were excessive dusty cobwebs on the ceiling and corners of the building. Dusty cobwebs can cause unsanitary conditions for the animals in the building. Ensure to maintain a more regular routine of cleaning dusty cobwebs off the ceiling and corners in the building.

***Correct by 4/28/2023.

This inspection and exit interview were conducted with a facility representative.
