RECORDS: DEALERS AND EXHIBITORS.

During the time of inspection the facility's records did not have the complete acquisition information for the kinkajou and the coatimundi (lacked address, license number) and is not maintaining an adequate inventory of offspring produced at the facility. This does not allow for APHIS officials to track animals as needed. Provide and maintain animal records that correctly disclose the information required by regulation including this information that was unavailable; any offspring born of any animal, the name and address of the person from whom the animals were purchased or otherwise acquired, the USDA license number of facility where animals were acquired. Correct by: 1 Aug 2014
