JUDITH K. REED

Type: ROUTINE INSPECTION
Date: 28-APR-2021

3.6(a)(2)(x)

Primary enclosures.

In at least six enclosures, housing approximately twelve puppies, the inspectors observed the feet and legs of the puppies falling through the openings in the wire flooring. Flooring that has openings that allows the feet and legs of puppies to pass through could result in injury to the animals.

Floors must be constructed in a manner that protects the dogs' feet and lets from injury and does not allow the dogs' feet to pass through any openings in the floor. The licensee must alter the flooring in a manner that does not allow the puppies' feet and legs to pass through the openings. The licensee must ensure that the flooring is safe for the dogs at all times.

To be corrected by: 19-May-2021

This inspection and exit interview were conducted with the facility representative.

Additional Inspectors:

William Janecke, VETERINARY MEDICAL OFFICER
