

Inspection Report

Lavern Nolt
1276 140 St
Charles City, IA 50616

Customer ID: **34444**
Certificate: **42-A-1185**
Site: 001
LAVERN NOLT

Type: ROUTINE INSPECTION
Date: 14-FEB-2018

3.1(e)

HOUSING FACILITIES, GENERAL.

The inspector observed a bag of dog food that was ripped open in the storage area. The feed spilled along the sides and bottom of the pallet. A feral cat was visualized running along the back wall and behind the feed pallet. The facility representative stated that cats had ripped open the bag of food.

Food that is not properly stored and protected from wild animals has an increased potential of becoming contaminated. Contaminated food supplies can affect the health of the dogs.

The licensee must store the food supplies in a manner that protects them from wild animals, spoilage, contamination and vermin infestation. In addition, all open bags of food must be kept in a leak-proof container with tightly fitting lids.

To be corrected by: February 18, 2018.

This inspection and exit interview were conducted with the facility representative.

*The female poodle (#032-585-888) that was listed under 2.40 (b)(2) on the 11/29/17 inspection report received veterinary care. This noncompliant item has been corrected.
