Certificate: **42-A-1344**
Site: 003
JOSH SPONHEIM & LINDSAY SPONHEIM

Type: ROUTINE INSPECTION
Date: 01-APR-2015

3.1(c)(1)(1)

HOUSING FACILITIES, GENERAL.

The outside portion of the enclosures is constructed of welded wire fence panels and each panel is framed with metal pipe. The second enclosure, housing one dog, has a fence panel whose bottom pipe is rusty and has numerous holes broken into its surface. The rust does not allow for the metal pipe to be cleaned and sanitized and the numerous holes could affect the structural strength of the pipe. This metal pipe must be replaced or altered in a manner that allows for proper cleaning and sanitization to occur and ensures that the fence panel remains structurally sound.

3.8

EXERCISE FOR DOGS.

The facility does not have a current Exercise Program that has been approved by their new attending veterinarian. An approved exercise plan will ensure that the dogs are receiving appropriate exercise for their health and well-being. Licensee must complete a new Exercise Program and have it approved by the attending veterinarian.

NO REGULATED ACTIVITY CAN BE CONDUCTED FROM THIS SITE UNTIL IT HAS BEEN APPROVED.

Exit interview conducted with facility representative.
