Type: ROUTINE INSPECTION
Date: 22-OCT-2020

2.50(a)(1)

Repeat

Time and method of identification.

One dog (Josie, #104, DOB 5/30/2020) did not have official identification on her at the time of inspection, although her tag had been made and was on hand and ready for placement on a collar. Lack of identification on dogs can make tracking of animals for health or breeding more difficult. Adult dogs (over 16 weeks old) must have identification affixed to them by means of a collar made of material generally considered acceptable to pet owners as a means of identifying their pet dogs.

This inspection and exit interview were conducted with the licensee.
