2.40(b)(2) DIRECT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

A male Boston terrier named Beau-D (m/c# OAO1650961) had an eye injury of 2 days duration according to the licensee. The cornea of the right eye was cloudy, had a blue color, and had a ring of red around the center of the cornea. The "whites" of the eye had numerous engorged blood vessels extending to the edge of the cornea. Eye problems can progress rapidly, can be painful, and can result in loss of vision. The licensee must have this dog examined by a veterinarian. The licensee must keep records of the diagnosis, treatment, and follow-up care and must make these records available to the inspector upon request. If the animal's condition does not resolve with treatment or if it returns, the licensee must consult a veterinarian for further evaluation and treatment.

TO BE CORRECTED BY OCTOBER 18, 2017

This inspection and exit interview were conducted with the licensee.
