SAMUEL & PRICILLA SCHWARTZ

Type: ROUTINE INSPECTION

Date: 27-MAY-2015

3.4(c) REPEAT

OUTDOOR HOUSING FACILITIES.

(c) Construction. All surfaces must be maintained on a regular basis.

***In the outdoor facility, there were two enclosures containing five adult dogs. The housing shelters in these two enclosures had chewed edges. The bottom of one hinged door was chewed on one shelter. The other shelter had metal trim around the doorway that was chewed and bent into the opening. The plastic type board at the bottom of the doorway was also chewed. These areas all created sharp edges that could injure the animals within the enclosure. The licensee must repair or replace these areas and assure that all surfaces are maintained as required.

This inspection began at 0913.

The inspection and exit conference were conducted with the facility representative.

End of report.
