Type: ROUTINE INSPECTION
Date: 05-MAY-2021

3.11(b)(2)

Cleaning, sanitization, housekeeping, and pest control.

During the inspection, of a facility housing 33 adult dogs, the inspector noticed quite a bit of buildup of dirt on the lip of the feeders and at the bottom. When asked about sanitation schedule the licensee said that they power washed the feeders, dog houses, and surfaces of enclosures once every six months. Buildup of dirt can attract bacteria, pets, and cause diseases. The licensee must ensure that any used primary enclosures and food and water receptacles must be sanitized at least once every two weeks.

To be corrected by: 5-19-2021

This inspection and exit interview were conducted with the licensee.
