Type: ROUTINE INSPECTION
Date: 04-FEB-2020

3.3(a)

SHELTERED HOUSING FACILITIES.

In the facilities new addition there was no heat. The add on sheltered building, housing approximately 20 medium size dogs, did not have a heat source for the sheltered part of the building. The ambient temperature inside the building was 42 degrees F, with outdoor temperatures falling. There was no bedding in the enclosures and the attending veterinarian was not aware these dogs were housed at outdoor temperatures. Housing dogs in facilities without protection from temperature extremes can harm the dogs. The licensee must ensure the sheltered part of the facility does not fall below 50 degrees F.

To be corrected by:
February 6, 2020

This inspection and exit interview were conducted with the licensee.
