Customer ID: **22004**
Certificate: **48-B-0276**
Site: 001
Darryl Wilson, Larry Wilson

Type: ROUTINE INSPECTION
Date: 24-SEP-2015

3.1(c)(3)

HOUSING FACILITIES, GENERAL.

There is an accumulation of dirt, rocks and food on the floors of the outdoor dog shelters. Infrequent cleaning of hard surfaces in contact with the dogs can lead to an increase in disease transmission. All hard surfaces in contact with the dogs must be spot-cleaned on a daily basis and sanitized in accordance with 3.11(b) to reduce disease hazards. Correct by 1 October 2015.

3.4(c)

OUTDOOR HOUSING FACILITIES.

The wooden floor of one outdoor dog shelter has worn away exposing the ground beneath it. Also there is an approximate 2"X3" hole in the front of this dog shelter. This shelter may not provide adequate protection from the elements. The licensee must repair or replace this shelter and then surfaces of all outdoor dog shelters must be maintained on a regular basis. Correct by 24 October 2015.

This routine inspection and exit interview were conducted with facility representatives, Karl Thornton, ACI and Kendall Lundy, ACI.

Additional Inspectors

Thornton Karl, Animal Care Inspector

Prepared By: KENDALL LUNDY, A C I USDA, APHIS, Animal Care
