Site: 001
TWIN PINE FARM & EXOTICS

Type: ROUTINE INSPECTION
Date: 14-OCT-2015

2.50(a)(1)

TIME AND METHOD OF IDENTIFICATION.

The two Bengal cats, considered domestics under the Animal Welfare Act, have not been identified. They can be identified by a collar and tag (as described in 2.51), a tattoo (issued by the Administrator), or a microchip (after obtaining and variance and showing availability of a chip reader). One of these method need to be employed to identify the domestic cats used for breeding. To be corrected by 11-13-15.

2.125

INFORMATION AS TO BUSINESS; FURNISHING OF SAME BY DEALERS, EXHIBITORS, OPERATORS OF AUCTION SALES, INTERMEDIATE HANDLERS, AND CARRIERS.

During this inspection only one of the owners was available to conduct an inspection. He stated he did not know where the records were and the other owner could email them. An email was sent around noon asking the owner to email the records of acquisition and disposition by this evening. As of 2:30 pm the next day the records had not been received. The records were cited on 7-21-15 due to incompleteness. All required business information (Program of Veterinary Care, acquisition and disposition records) need to be available for inspection within a reasonable time.

To be corrected with future inspections.

3.6(b)(3)

PRIMARY ENCLOSURES.

In the middle enclosure are two Bengal cats and a Geoffroys cat. During the last inspection the licensee was told that Bengal cats are considered domestics under the Animal Welfare Act and all requirements for domestic cats must be met. This enclosure does not contain a litter box, which is required for domestic cats. A large enough receptacle to accommodate these size cats, containing sufficient clean litter, must be provided to contain excreta and body wastes.

To be corrected by 10-19-15.

3.125(a) REPEAT

Inspection Report

FACILITIES, GENERAL.

In the first exotic cat enclosure containing 3 cats, the rotted stump next to the wire was treated for ants, but was never removed after this was cited on 7-20-15. This rotting piece of a tree needs removal so as to not harbor future pests.

Exit briefing conducted with licensee.
