Site: 001

LYNN FIGUEROA

Type: FOCUSED INSPECTION

Date: 29-SEP-2016

This is a focused inspection that was limited to re-inspecting "BB" and her enclosure. The licensee consulted with her veterinarian, & "BB" is currently undergoing treatment. The bridge of her nose appears slightly improved with less reddening. "BB" is scheduled for a re-examine in 4 days. The veterinarian has determined that her condition was not attributable to her enclosure design, but to mosquitoes,

Continue with the recommendations of your veterinarian until this condition is fully resolved.

This inspection and exit interview were conducted with the licensee. The licensee had to leave before an inspection report could be prepared, and it will be sent by E mail.
