2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

A written Program of Veterinary Care (PVC) was not available for inspection. In order to comply with this section of the Animal Welfare Act (AWA) a written PVC must always be in place and available for inspection. Under formal arrangements, as directed by the AWA, the establishment must have an updated PVC by the current Attending Veterinarian (AV). To ensure adequate veterinary medical care to regulated animals, a complete written PVC must be readily available for inspection. Also, the contracted AV must schedule and regularly visit the establishment's premises.

This inspection and exit interview were conducted with a facility representative.
