#### 2.40(a)(1)

##### **Attending veterinarian and adequate veterinary care (dealers and exhibitors).**

The facility does not have a Program of Veterinary Care for their cats. The facility seeks veterinary care at a local veterinary clinic but does not have an attending veterinarian under a formal agreement.

A written Program of Veterinary Care must identify a veterinarian who has formally agreed to serve as the attending veterinarian for the facility. This agreement includes conducting at least one on site visit annually and preparing or reviewing the Program of Veterinary Care. Failure to secure an attending veterinarian prevents APHIS officials from determining whether animals at the facility are receiving adequate veterinary care or whether appropriate methods are being used to prevent, diagnose, control, and treat diseases and injuries.

Each dealer and exhibitor shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the premises of the dealer or exhibitor.

This inspection and exit interview were conducted with the facility representatives.
