Type: ROUTINE INSPECTION
Date: 11-MAY-2022

2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The written program of veterinary care indicates that the attending veterinarian will visit the facility annually. Last visit from the attending veterinarian was in July, 2020. Facilities must have regularly scheduled visits by a veterinarian to assess the health and well-being of the animals.

To be corrected by June 11th, 2022.

3.78(d)

Outdoor housing facilities.

An outdoor enclosure housing 6 capuchin monkeys has a perimeter fence that is less than 6 feet high. Fences less than 6 feet high must be approved by the Administrator. The fence must be constructed so that it protects nonhuman primates by restricting unauthorized humans and animals the size of dogs, skunks and racoons from going through it or under it and having contact with the nonhuman primates. The fence must be at least 3 feet in distance from the primary enclosure to prevent physical contact between animals inside the enclosure and outside the perimeter fence.

To be corrected by the end of 2022

This inspection and exit interview were conducted with facility representative.
