4993 Fairview Rd  
LENOIR CITY, TN 37772

Customer ID: **506623**  
Certificate: **63-A-0194**  
Site: 001  
MONKEYIN AROUND RANCH

Type: ROUTINE INSPECTION  
Date: 23-MAR-2021

---

#### 3.75(c)(2)

##### Housing facilities, general.

Multiple enclosures housing non-human primates contain fixtures/objects that are in need of repair or replacement.

\*One enclosure housing a capuchin female with infant has a damaged bamboo pole supporting a perch fixture. The perch is slanting rather than horizontal.

\*Two enclosures housing capuchins have a fabric hammock that is worn such that the center material is no longer intact/has large holes and has thread like strings hanging from the damaged areas. One capuchin was noted playing with the threads and putting them in its mouth.

\*One capuchin enclosure contains a black plastic crate that has been chewed on its free edges such that pieces of plastic are missing and sharp plastic points are protruding.

The worn fixtures/objects in the enclosure may lead to injury of the non-human primates and create a risk of ingestion of foreign non-digestible materials.

All surfaces including the fixture/objects within the enclosure must be maintained on a regular basis and must be replaced when worn or soiled. Correct by 3/27/21.

This inspection and exit interview were conducted with the Authorized Person.
