**Attending veterinarian and adequate veterinary care (dealers and exhibitors).**

The facility's methods to control and prevent diseases were inadequate. The licensee is not following the vaccine protocol as described in the Program of Veterinary Care approved by the attending veterinarian. Upon interview, the attending veterinarian stated that both rabies and distemper vaccines should be given as stated in the program. The APHIS official asked the licensee if the ferrets have received vaccines and they confirmed that they have not due to lack of coordination of schedules. When the veterinarian's instructions are not followed, the provision of veterinary care may be inadequate or inappropriate. The facility needs to follow the instructions provided by the attending veterinarian and as directed in the written program of veterinary care.

This inspection and exit interview were conducted with a facility representative.

You may appeal all or part of any inspection report by submitting a written statement contesting the findings—along with any supporting documentation—to the Deputy Administrator. Appeals of routine, focused, or attempted inspections must be received within 21 days of report issuance as shown by the signature line of this report.
