ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

In the kennel facility there are five outddoor housing areas and a whelping building. In the outdoor housing area under the open barn there is one female seven year old adult Pomerinarian, #064619330, which needs to be evaluated by the attending veterinarian. The animal has drainage from both eyes. There is an accumulation of dark green and gray matter on both sides of the upper canines, gums and both molers. The dealer must maintain written documentation of the evaluation and all treatmebnt to protect the health and welfare of the animals.

Affects one adult.

This focused inspection and exit interview was conducted with the facility representative.

The previously identified animals and treatment records were checked during the inspection.
