Certificate: **71-A-1284**  
Site: 001  
Kimberly Alexander

Type: ROUTINE INSPECTION  
Date: 20-MAR-2014

### 2.40(b) REPEAT

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The previously identified white female was evaluated and treated by the attending veterinarian. However in the facility there is now one white adult male Chinchilla named Tobasco which needs to be reevaluated by the attending veterinarian. The dealer stated and provided documentation the animal had been evaluated by the attending veterinarian fifteen days prior to the inspection. However she stated and documented she had stopped treatment after three days due to stress and biting of the animal. During the inspection the animal's left eye was closed shut. The dealer must have the animal reevaluated and maintain written documentation of the evaluation, instructions and all treatment to protect the health and welfare of the animals.

Affects one adult.

The inspection and exit briefing was conducted by the Dealer and Sandra Meek, ACI.
