2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

At the time of inspection, there wasn't a written program of veterinary care available for review.

A completed written program of veterinary care is important for the care of the animals and ensures clear and accurate communication between the facility and the attending veterinarian. The licensee must have a completed program of veterinary care available for review during inspections.

Each dealer and exhibitor shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian, the formal arrangements shall include a written program of veterinary care.

2.134(a)

Contingency planning.

At the time of the inspection, the licensee doesn't have a contingency plan. Dealers and exhibitors must develop, document, and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster (one which could reasonably be anticipated and expected to be detrimental to the good health and well-being of the animals in their possession). The contingency plan requirement ensures that the animals receive proper care during emergency situations.
