### 3.11(c)

#### CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

At time of inspection there is an overgrowth of grass around the outdoor elevated enclosures. The overgrowth of grasses in the kennel area could provide a living area for rodents, other pests or vermin. The licensee must control all grasses and weeds to facilitate cleaning of the premise to protect the health and well-being of the dogs. To be corrected by 09-10-15.

An exit interview was conducted by Cathy Niebruegge, ACI and facility representative.
