DARLENE CHALFANT

Type: ROUTINE INSPECTION

Date: 03-SEP-2014

3.1(c)(1)(1)

HOUSING FACILITIES, GENERAL.

At time of inspection numerous wire pen dividers are rusted to the point that they are starting to deteriorate and break apart causing broken wires in the divider panels. The divider panels in these pens must be replaced or repaired in a manner that removes the rust and repairs the broken wires. This must be done to ensure that the structural integrity is not compromised and that the animals are protected from injury due to broken wires. The bottom support pipes for these wire panels where rusty, need to be painted to prevent further rusting and deterioration. To be corrected by 10-30-14.

An exit briefing was conducted with the facility representative.
