### 3.31(a)

#### SANITATION.

All enclosures have a build up of manure which leave the pigs with no clean resting area. Dirty pens are not a healthy environment for the animals and can lead to an increase in disease , odors and pests, all which may result in pain and distress to the animals. All pens must be cleaned with such frequency to prevent a build up of manure.

CORRECT BY : Close of Business on 1/16/18

The inspection and exit briefing were conducted with the owner's son .
