JUSTIN, TX 76247

Customer ID: **334258**  
Certificate: **74-A-1514**  
Site: 001  
DIANA MCMORRIS

Type: ROUTINE INSPECTION  
Date: 18-MAY-2022

---

**2.40(a) Critical**

**Attending veterinarian and adequate veterinary care (dealers and exhibitors).**

The licensee does not currently have an attending veterinarian or a written program of veterinary care. The licensee has identified a veterinarian to be their attending vet but this vet has not yet visited the property, examined the animals, or provided a written program of vet care. Veterinary care is important to prevent and treat medical problems that may arise; animals without adequate vet care may suffer from pain or discomfort arising from untreated or improperly treated illnesses or conditions. Correct by June 15, 2022 by establishing a relationship with an attending veterinarian and obtaining a written program of veterinary care.

**2.40(b)(2) Direct**

**Attending veterinarian and adequate veterinary care (dealers and exhibitors).**

An adult female sugar glider has a pink hairless moist skin wound on her right side running from the hind leg to the armpit. There is an additional pink hairless are under the left armpit. Both affected areas have brown and yellowish crusts around the edges. The licensee stated that she had observed the injury about 5 days ago and had been treating with an antibiotic but had not consulted with a veterinarian regarding care of the animal. The licensee stated that the animal's condition was not improving. Animals who have injuries or illnesses may suffer from pain, discomfort, or debility if they do not receive adequate veterinary care. Correct by 5/19/22 by obtaining veterinary care for this animal.
